

ATMDepot.com Triton 9600 Certified Reconditioned 1 Year Parts & Labor Warranty

TRITON 9600 SERIES

9600 with full-motion video high topper

SETTING THE STANDARD Triton's wildly successful 9600 Series ATMs represent the pinnacle of quality in the industry. Reliability. Adaptability. Visibility. Every "ility" you want in an ATM has been carefully designed into every machine.

RELIABILITY Each ATM is designed so your customers can depend on them. We made them operator-friendly, too, so

9600 with low topper

you can keep them up and running. And Triton products are built to perform, so we stand firmly behind all our machines with a comprehensive warranty program.

ADAPTABILITY Triton can custom build your 9600 Series ATM to your exact specifications. From the number of cassettes to the combination lock, you customize your ATM to fit the needs of your location. And as those needs change, so can the machine. It's completely upgradeable, so it can readily adapt to the changes in your business.

VISIBILITY Each 9600 Series ATM features several highly visible opportunities for advertising – space and media you can use yourself or sell to others.

- Optional video screens can showcase a variety of ads and graphics
- Exterior space on the machine can be used for multiple signage purposes
- High-resolution thermal printers can print receipts with ads & messages
- Optional LED panel can display scrolling messages
- Multiple cassettes can dispense custom coupons
- Transaction screens can display custom graphics
